IMPERIAL CAR WASH SYSTEMS

Delivering
outstanding
performance at a
low cost per vehicle

NEW TECHNOLOGY FOR TODAY'S MOST ADVANCED CAR WASHES

Malco is pleased to offer a new line of car wash products designed to provide today's car wash operator with the best cleaning power available at the lowest cost-per-car on the market. This unique and adaptable line works in all cleaning and weather conditions and with any existing dispensing system. With just a few simple foundation products and enhancers, today's operators can offer their customers everything from basic cleaning to premium add-on services. This super-concentrated, environmentally-safe product line produces the cleanest, shiniest cars.

All products available in two sizes

Imperial™ application chart for tunnel car wash

① Imperial™ Touchless Low

Formulated for use in tunnels and touch-free automatics, this high-solvent low pH presoak is safe and effective. In addition to tunnels and touch-free automatics, Imperial Touchless Low may also be used in self-serves. 355:1

5 gal. 194205 30 gal. 194230

② Imperial™ Touchless High

Formulated for use in tunnels and touch-free automatics, this safe and effective high-solvent alkaline presoak provides superior cleaning at high pressure. In addition to tunnels and touch-free automatics, Imperial Touchless High may also be used in self serves. 240:1

5 gal. 194305 30 gal. 194330

③ Imperial™ Wheel and Tire

Non-caustic, sodium hydroxide-free cleaner is safe for all wheel types including chrome, aluminum and magnesium. It uses powerful detergents to remove road grime, brake dust and brightens white walls and white letter tires. 17:1

5 gal. 194505 30 gal. 194530

④ a) Imperial™ Clean

Multi-purpose, high-foaming, deep-cleaning lubricant detergent with a pleasant apple fragrance. It is a combination of surfactant and solvent cleaners making it the choice for cleaning organic and inorganic materials. Imperial Clean also makes a great towel soap, wall cleaner and equipment degreaser and can be used as brush bucket soap, high-pressure soap or a foam brush soap. 240:1

5 gal. 194005 30 gal. 194030

④ b) Imperial™ Foamers

Formulated as a paint polish and conditioner for triple foam applications with a pleasing cherry scent and siliconized carnauba wax. Makes an impressive show of thick, rich suds wherever a foaming product is used or if a soap application requires additional foaming characteristics. Product rinses easily. Available in red, blue and yellow colors. 355:1

Red Foamer
5 gal. 194605 30 gal. 194630
Blue Foamer
5 gal. 194805 30 gal. 194830
Yellow Foamer
5 gal. 194905 30 gal. 194930

⑤ Imperial™ Dry

Contains siliconized carnauba wax for a true wax protection. Its low spotting and fast beading drying agent reduces end of tunnel dry time. Non-petroleum formula means no oily film to create tunnel buildup. Grape scent. 355:1

5 gal. 194105 30 gal. 194130

⑥ Imperial™ Shine

A revolutionary silicone-fortified enhancer that can be used as a stand alone foaming protectant or as an additive in triple-foam applications. Foams like a soap and beads water like a wax. Pleasant lemon scent. 355:1

5 gal. 194405 30 gal. 194430
